

Take CoroTurn® Prime and PrimeTurning™ to the next level

Save Time with Twin-tool Holders

The new, all-directional PrimeTurning™ method and CoroTurn® Prime tools allow you to perform your existing turning operations in a much more efficient way. Broaden your capabilities even further with new CoroTurn® Prime tool holders for multi-task and vertical lathe machines.

Saves tool change
and setup time

Reduces inventory

Increases
productivity

Streamline your operation

Imagine the time savings you can achieve when you perform roughing with a B-type insert and then switch to finishing with an A-type insert all within the same tool and operation. This streamlined operation of the CoroTurn® Prime Twin-tool holder for multi-task machines reduces inventory and increases productivity for a versatile, yet easy operation.

CoroTurn® Prime tool holders

Our total offer for PrimeTurning™ now includes even more productive machining possibilities. Achieve increased productivity and profitability through fewer machine stoppages with new tool holders for axial, radial and multi-task machines.
